

Teachers—Assign Curriculum from the Table of Contents

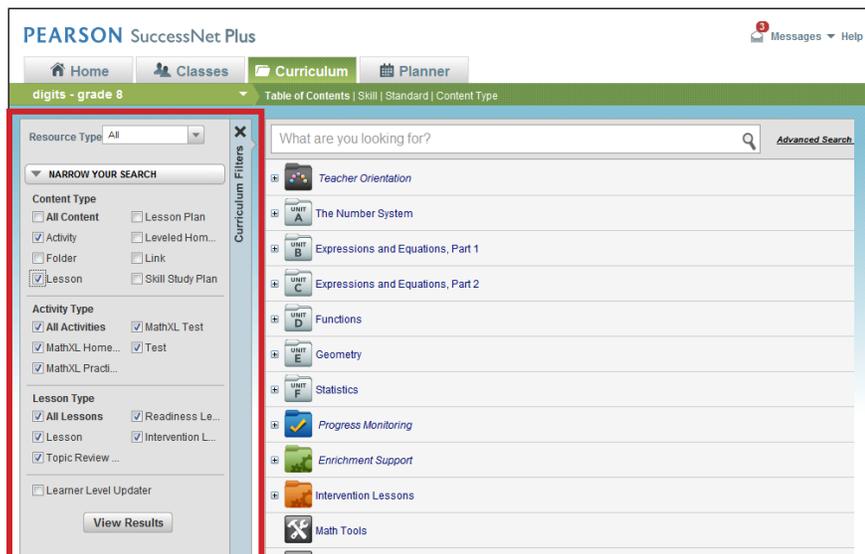

Introduction This guide demonstrates how to assign curriculum from the Table of Contents on SuccessNet Plus.

Table of Contents After logging in to your SuccessNet Plus teacher account, select the Curriculum tab or click **Table of Contents** to access your Pearson curriculum.

Click the down arrow to access additional classes using a different curriculum. You can also choose to view the curriculum by Skill, Standard, or Content Type. To search for resources, enter a keyword and then click the search icon to the right.

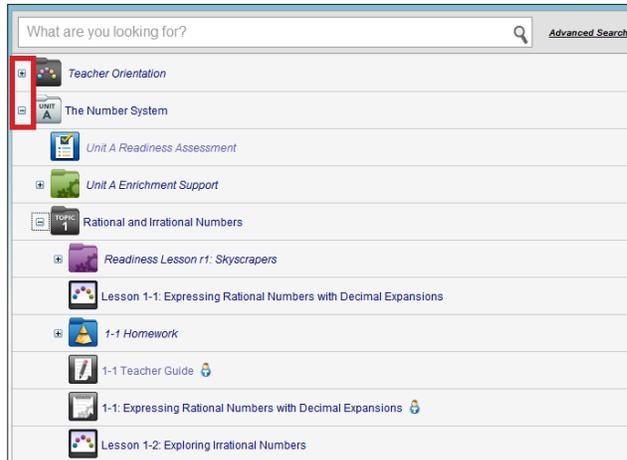

Curriculum Filters In the Curriculum Filters panel, you can choose to view Student, Teacher, or All resources. Narrow your search results by making selections in one or more categories, and then click **View Results**. Click the X to collapse the filters panel and expand the Table of Contents.

To remove the filters and return to the full Table of Contents, click **Clear Results**.

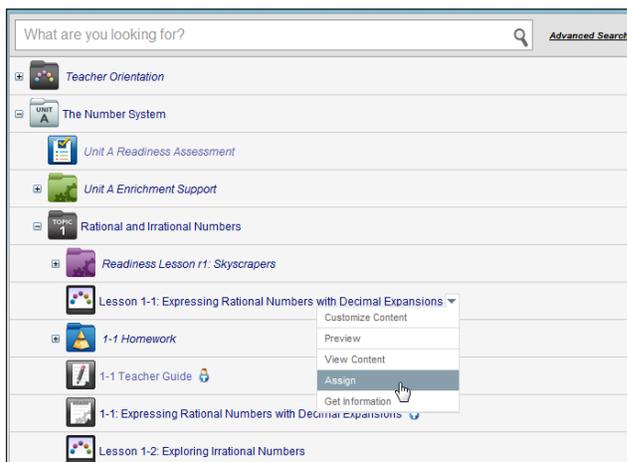

Assigning Curriculum Resources

Click the plus sign or the folder to display the folder's content. Depending on your curriculum, each folder typically represents a section of content or type of resource—such as teacher resources, assessments, a unit, a chapter, a topic, or a lesson.

You can assign either individual curriculum items or a folder of content. Assigning a folder is not recommended. If you assign a folder, all contents within the folder—including assessments—are assigned to students on the same due date. If a folder includes teacher resources, those will not be assigned to students. A teacher icon indicates the item is a teacher resource.

To assign a lesson, move your pointer over a title to display the down arrow. Click the down arrow, and select **Assign**.

Select one or more classes, and choose a due date and time. Use the Advanced Assign option if you want to choose different due dates for each class or assign the lesson to select students in the class. When you are done selecting your options, click **Save and Assign**. The assignment now appears on your students' To Do lists.
