

Dear Parent or Guardian,

Our school is excited to introduce Online Learning Exchange, an online product that will help your kids exchange ideas with us and collaborate with other students to enhance their learning experience. OLE is available on any standard web browser, allowing your students to extend practice time at home.

From time to time I may assign your child homework that could include watching a video, answering some questions that they will discuss with their fellow students, uploading a file they will submit to me, or even accessing their textbooks electronically with the eTexts (if available).

Accessing OLE from Home: OLE can be accessed on any web browser via a desktop, laptop, or tablet.

1. Open your browser and go to www.onlinelearningexchange.com
2. In the upper right, click Login
3. Enter the username and password that was assigned to your child. Your child's home page should appear.

Accessing your Assignments/Discussions:

1. On the home page you will see to the left assignments discuss. Click on those to see what I have assigned to your child.

If you have any questions about OLE, please feel free to contact me for assistance.
